Importance: High

Hi Kathleen, Joel, Matt and Mark. As a follow up to our last Tuesday's conference call, and as per your request, below and attached please find the most recent ambient monitoring data from Exide through June 22, 2014 (first attachment) that I just received this morning from Exide. I have also attached the most recent monitoring data that we have from SCAQMD's monitors around Exide through June 15, 2014 (second attachment). Please note that the data includes lead, as well as arsenic ambient data. Please let me know if you have any other questions. Thanks.

Subject: Exide Lead Monitoring Data thru 6/17/2014
Importance: High

Hi Kathleen, Joel, Matt and Mark. Hope you all had a nice weekend. Matt, as per your last Friday's voice message request , attached please find the most recent submittal of the ambient Lead monitoring data measurements that Exide collects around their Vernon facility that I just received from Exide this morning. The data covers the period from December 2009 through June 17, 2014. Also as I indicated to you in my earlier message, in your voice message you had also asked for Exide's monthly reports for Rule 1420.1, however, Rule 1420.1 does not require submittal of monthly reports by Exide. Therefore, there are not such documents to provide to EPA.

Please let me know if there are other documents that EPA is interested in for preparation of your NOV conference call with Exide, scheduled for June 30, 2014. Thanks.

Mohsen Nazemi, P.E.
